

SWAT virtual working group established in ClimaRice

03.01.2011

A virtual working group of Engineers and Scientists using SWAT model in the CLIMARICE project has been created. The objective of this virtual group is to facilitate the interaction among the engineers and scientists as they start setting-up the SWAT model and develop expertise in SWAT modelling and GIS.

The discussions in the group can be accessed at https://groups.google.com/group/climarice_swat
